

# SharXS HTI

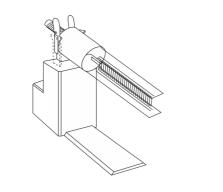

### Areas of application

- Concert Lighting
- Club & Disco
- Stage & Theatre
- Studio, TV, & Film
- Architecture & Architainment

#### Product features and benefits

- SHARXS lamps provide consistent lengths and bases within each SharXS family for simplified fixture designs (Baby SharXS 93mm, SharXS 136mm, Maxi SharXS 220mm)
- Robust design with eXtreme Seal (XS) technology, allowing up to 450°C at the pinch seal
- Hot restart capability
- Natural tone of light with CRI as high as 90 for "Brilliant" types
- Pre-focus base for accurate lamp installation

SharXS HTI

SHARXS HTI 1500 W/D7/60 4)

Maxi SharXS HTI 1800 W

Maxi SharXS HTI 2000 W

- $^{1)}\,\mathrm{Also}$  available as an OEM package with 30 units without knurled nuts
- <sup>2)</sup> XS = eXtreme Seal (maximum permissible foil temperature 450 °C)
- 3) Also available as an OEM package with 30 units without knurled nuts/XS = eXtreme Seal (maximum permissible foil temperature 450 °C)
- <sup>4)</sup> May be operated from 1,200...1,500 W

<sup>5)</sup> Fan

<sup>6)</sup> Measured at Molybdenium foil / Pinch Seal region (eXtreme Seal Technology)

#### Safety advice

Because of their high luminance, UV radiation and high internal pressure during operation, Maxi SharXS HTI lamps may only be operated in enclosed lamp casings specially constructed for the purpose. Appropriate filters must ensure that UV radiation is reduced to an acceptable level. Mercury is released if the lamp breaks. Special safety precautions must be taken. Information on safety and handling is available on request or can be found in the leaflet included with the lamp or in the operating instructions.

### Application advice

For more detailed application information and graphics please see product datasheet.

#### Disclaimer

Subject to change without notice. Errors and omission excepted. Always make sure to use the most recent release.
